

SAVE THE DATE!

Saskatchewan Epidemiology Association

Annual Fall Symposium & Workshop

November 9th- 10th, 2011

Sandman Hotel

Regina, SK

Please plan on joining us for the 11th annual SEA symposium!

One health: bridging animal and human health in public health practice

Keynote speaker –

**Dr. David Butler-Jones, Chief Public Health Officer,
Public Health Agency of Canada**

Having recently participated in the 1st international congress on One Health, Dr. Butler-Jones will provide an overview of how the theme of 'One Health' relates to public health in Canada. We are honoured Dr. Butler-Jones is taking time in his busy schedule for this event!

You can also look forward to presentations by:

- ❖ Saskatchewan's Chief Medical Health Officer, **Dr. Moira McKinnon**, providing opening remarks
- ❖ **Dr. Karen Morrison**, Ontario Veterinarian College, University of Guelph
- ❖ **Phil Curry**, West Nile Virus consultant, SK & MB Ministries of Health
- ❖ **Dr. David Sauchyn**, Prairie Adaptation Research Collaborative, University of Regina
- ❖ **Dr. Tasha Epp** – Veterinary epidemiologist, University of Saskatchewan
- ❖ **Dr. Greg Douglas**, Saskatchewan's Chief Veterinarian, Ministry of Agriculture, providing closing remarks

And more surprises to come!

Target audience: Epidemiologists, medical health officers, public health inspectors, public health nurses, veterinarians, students, public health researchers, health care professionals, health information management professionals, analysts, etc.

The annual SEA fall symposium is one of this province's best (and most affordable!) opportunities for learning, hearing from public health leaders, sharing best practices and networking with public health professionals in Saskatchewan. Look out for information on the submission of abstracts, posters and oral presentations - coming soon!

SEA membership not required for attendance at the symposium – registration includes membership!

**Workshop on November 10th –
'Applying a population health perspective to health
planning and decision-making'**

We are pleased to announce that the Canadian Institute for Health Information's (CIHI) Canadian Population Health Initiative will be providing a one-day interactive workshop on population health assessment for program planning.
