

Workshop Information

Workshop title: Social Network Analysis

Presented by: Dr. Ann Jolly, PhD

Associate Professor, School of Epidemiology and Public Health
University of Ottawa

When: Wednesday, October 9th, 2019, 8:30 am – 3:30 pm

Where: Travelodge Hotel and Conference Centre Regina, Burlington Room
4177 Albert Street, Regina, Saskatchewan

Description: An introduction to social network analysis in infectious disease applied research and prevention. Participants will:

- Use a social network approach to interview people about exposures
- Conduct a practical demonstration of our own social networks at the workshop
- Use sample datasets and a reference guide to work through some social network data analysis questions in Pajek

Additional Information: Participants will need to bring a laptop with Windows or a Mac with a Windows emulator (though this may not be as easy as using Windows software). Prior to the workshop, participants will need to download Pajek – a free software application – which can be found at the following location: <http://vlado.fmf.uni-lj.si/pub/networks/pajek/>.
